

Yasniel Fajardo Egues

Lead | Sr. FullStack | AWS & GCP Developer

ABOUT ME

I enjoy guiding my colleagues and participating in creating fast and efficient web applications using React for the frontend and Go or Node for the backend. I prioritize ease of use and best practices to deliver high-quality, easy-to-maintain, and easy-to-use applications. During my career I maintained exponential growth thanks to my skills and my attitude to continue growing every day.
